

ACCESSORY DRIVE KITS

from **CRP Automotive.**

What you need to know about the ContiTech Accessory Drive Kit program:

- 50 kits covering 1,200 applications
- OE-quality serpentine belts
- Kits include tensioners and idlers

With over 60 years experience supplying ContiTech OE-quality belts for European and Asian vehicles, *CRP Automotive offers solutions for any situation.*

We're tapped into the day-to-day of our customers, and it's their needs that have driven us to innovate one of the industry's most comprehensive lines of automotive belts and kits.

We deliver the highest-quality belts and components for our kits. So you get parts you can trust, along with the knowledge and expertise only CRP Automotive can bring to the table.

To learn more about our full line of belts and kits, call 800.526.4066 or visit contibelts.com.

ACCESSORY DRIVE KIT

When a professional repair technician replaces a vehicle's serpentine belt(s) it's recommended they also replace the tensioners and idlers to help prevent uneven belt wear and premature failure. That's why we created the Accessory Drive Kit with all the OE-quality parts you need for a complete repair, together in one box.

Kit includes:

- Serpentine Belt(s)
- Tensioner(s)
- Idler(s)
