

Working on an import?

Use parts designed for the purpose.

With more and more people purchasing import vehicles, you'll be glad to know that we have you covered with ContiTech Serpentine Belts.

This program consists of 355 belts and covers a wide range of European and Asian vehicles. As the belt of choice for many import car manufacturers, ContiTech has a long-standing reputation for manufacturing a superior product — one that you and your customers can truly depend on for years to come.

ContiTech has always been a leader in Original Equipment timing belts, timing belt kits, V-belts, and serpentine belts. And when it comes to OE form, fit and function, ContiTech Serpentine Belts are unrivaled.

The ContiTech Serpentine Belt program is an especially smart way to capitalize on the growing import car segment. Offer your customers the peace of mind of having OE-quality belts, offer them ContiTech.

For more information, visit www.contibelts.com.
