

Why you should recommend a Pro Series Timing Belt Kit.

To make sure the entire timing belt system will operate and perform correctly for the intended life of the belt, vehicle manufacturers always recommend that all the system's components be changed at the same time.

Replacing a timing belt typically requires 2-4 hours of labor. And changing the tensioner and idler at the same time does not add significant time to the job. However, not replacing all the components such as the tensioners, idlers or waterpump leaves weak links in the system that could cause a timing belt failure and very costly repairs. Plus, faulty or worn-out tensioners or idlers are a common cause of timing belt failure.

When you recommend a timing belt kit you avoid wasting time looking up multiple SKUs, or searching racks for the right parts. And since everything the professional repair technician needs is in one box, it's much easier to price.

The benefits of a ContiTech Pro Series kit.

- First to market with new and innovative kits developed by professional repair technicians for professional repair technicians.
- It's the only timing belt replacement kit that includes all of the following OE-quality parts: ContiTech Timing Belt(s), Idlers, Tensioners (hydraulic, if applicable), and Water Pump.
- Since kit contains all necessary components for a complete timing service, it reduces professional repair technicians' estimating time.
- Almost 100 kits covering more than 300 vehicle applications including, Acura, Audi, Chevrolet, Chrysler, Daewoo, Dodge, Eagle, Ford, Honda, Hyundai, Jeep, KIA, Lexus, Mercury, Mitsubishi, Plymouth, Pontiac, Saab, Saturn, Subaru, Suzuki, Toyota, Volkswagen, Volvo
- Problem Solver Kits include special water pumps with housing and/or metal impellers.
- Competitively priced from an OE supplier you can trust.

OE-quality parts and only OE-quality parts.

- OE manufacturer for belts
- 5 OE manufacturers for water pumps
- 4 OE manufacturers for hydraulic tensioners
- 6 OE manufacturers for idlers
- 7 OE manufacturers for mechanical tensioners

Kits with an extended mile guarantee.

Every Pro Series timing belt kit installation is guaranteed for the full service interval as specified by the vehicle manufacturer.

Dare to Compare.

We encourage you to compare them to any other timing belt kit on the market. Which one includes only OE-quality parts? Which one guarantees every part for change intervals as specified by the original vehicle manufacturer? Which one would you choose if you were replacing the timing belt in your car?
